

ERTEC Environmental Systems

Protecting Global Lands and Waterways™

E-Fence™

Special Status Species Control

ERTEC E-Fence™ is a patent pending, durable and low cost species exclusion and control barrier designed for projects in habitat where threatened small vertebrates are present. The fence is designed to exclude small vertebrate species from active construction areas, control movement within fragmented habitat and for survey perimeter control. The barrier is made from a heavy and rigid polymer matrix which is extruded for strength and durability. The extruded strands of the ERTEC polymer matrix will not separate, stretch or entrap even persistent intruders. It is

non-toxic and environmentally safe. Even after extensive exposure to sun, harsh weather and salt water it continues to perform. Unlike silt fence or plywood fence, E-Fence allows wind and water flow-through. It provides very high uptime which significantly reduces maintenance and monitoring costs. It can withstand abrasion without losing its shape. Its smooth surface is highly resistant to adhesion, slippery to climbers, will resist accumulation of debris. E-Fence can be used for temporary or long duration requirements. It is made from recycled HDPE and is fully recyclable at the end of life. Accepted by USFWS.

Configurable for distinct special-status-species:

Options:

- Height
- Trench Depth
- Climber Barrier
- Snake Funnel

100% American Content / Labor

R R R™
 ✓ Recycled
 ✓ Reusable
 ✓ Recyclable

Key Product Characteristics

Unit weight, (lbs/sq ft)	0.16 - 0.19	Recycled Material Content (minimum)	100%
Functional life (minimum)(years) GRN/BLK	4+/15+	Reusable	YES
Dimension – segment lengths (ft)	100 to 150	Recyclable	YES
Configurable for different species	YES	UV Stability ASTM D4355 %	96
Optional lip dimension (in)	5	Service temperature (deg F)	-30 to 180

Product Benefits –

- Lasts entire project and reusable
- Very high uptime (reduces washouts and blow-downs)
- Fast installation, lightweight
- Minimal maintenance,
- Significantly reduced monitoring
- Configurable for distinct species
- Recycled Content 100%, recyclable

Product Designation	Dimensions
E-Fence Width: 10 in, 20 in, 30 in	150 feet segments, variable configurations, Black or Green
E-Fence Width: 40 in	100 feet segments, variable configurations, Black or Green
E-Fence Width: 48 in	100 feet segments, variable configurations, Orange
Configurable for different species	Climber Barrier, Snake Funnel, Trench Depth, Barrier Height, Duration See Specification for recommended configuration for each species

Design and Installation

For proper design and installation refer to the Installation and Maintenance guide.
