Texas builder builds house for Extreme Makeover: Home Edition and chooses ERTEC for Sediment Control

DFW, Texas. December 5, 2008 — ERTEC Environmental Systems and Wall Homes announced today that Wall Homes chose ERTEC's Perimeter Guard™ for sediment control during construction of a home for ABC's Extreme Makeover Home Edition. The show is expected to air on March 1, 2009.

Perimeter Guard™ and Curb Inlet Guard™ change the game for homebuilders due to their long life and reusability. The products can improve performance and significantly lower the life-cycle costs for temporary sediment control practices through durability, lower maintenance and resistance to crushing and abrasion. Perimeter Guard is placed around the periphery of construction sites to keep disturbed soil from leaving the site during storms. Sediment carried by storm water run-off from construction sites is considered one of the last great sources of water pollution.

"We chose ERTEC because it is far-and-away the most effective sediment barrier we have used in home building. Perimeter Guard™ continues to perform in a high traffic building environment. A project like this has very challenging time constraints. We knew there would be some abuse from foot and vehicular traffic and ERTEC did its job beautifully. We also like the sustainable aspects. Unlike traditional products used for sediment and erosion control, ERTEC is reusable and recyclable, which is becoming more and more important in home building," said Kelly Pollard, Director of Purchasing – Wall Homes.

About Extreme Makeover: Home Edition

Extreme Makeover: Home Edition has a team of designers, contractors, and several hundred workers who race against time to complete a four-month home building and renovation project in just seven days. The team has one week to totally rebuild and furnish an entire house complete with landscaping. The lives of the lucky families are changed forever when they learn that they've been selected to have their home rebuilt, according to the network. Extreme Makeover: Home Edition has won back-to-back Emmy Awards as Best Reality Program and is entering its sixth season on ABC. The program is produced by Endemol USA, a division of Endemol Holding. Conrad Ricketts is the executive producer; and David Goldberg is the president of Endemol USA. The show airs on Sundays (7:00-8:00 CST), on the ABC Television Network.

About Wall Homes

Wall Homes has neighborhoods throughout Dallas, Fort Worth, Austin, and San Antonio. They offer a variety of single-family detached and attached homes with architectural style for discerning buyers who want the efficiencies of a production builder and the flexibility to customize individual new home designs. This project will reflect the design and construction excellence for which the company is known. For more information on this special project visit www.extreme.wall.com

About ERTEC

ERTEC Environmental Systems manufactures and sells exciting products to the erosion and sediment control industry. Its proprietary technology stabilizes eroding land or significantly reduces unlawful sedimentation to global waterways. On average, ERTEC's sustainable solutions provide more effective solutions at half the total cost. www.ertecsystems.com
