

ERTEC[®] Environmental Systems

Better Sediment Control - Half the Cost – Highly Sustainable

- Lower total cost
- More effective sediment control
- Highly Sustainable **R R R**[™]
 - ✓ Recycled – post consumer content
 - ✓ Reusable on multiple projects
 - ✓ Recyclable at the end of life

ERTEC Environmental Systems is bringing exciting, environmentally sustainable technology to the field of erosion and sediment control. Its proprietary technology stabilizes eroding land or significantly reduces unlawful sedimentation to global waterways. On average, ERTEC provides more effective solutions at half the total cost.

PERIMETER PROTECTION

Perimeter Guard[™]

Protects home building sites
One installation per project

S-Fence[™]

Alternative to silt fence, will not deteriorate or blow down

Edge Guard[™]

Protects small drainage areas
Provides mulch control

Hard Surface Guard[™]

Protects on asphalt, concrete

DRAIN INLET PROTECTION

Curb Inlet Guard[™]

Protects curb inlets

Combo Guard[™]

Protects curb & grate inlets

Drop Guard[™]

Protects unpaved drop inlets

GR-8 Guard[™]

Protects paved drain inlets
round or rectangular grates

SLOPE PROTECTION

ProWattle[™]

Protects stabilized slopes

100% American
Labor / Content

DITCH & SWALE PROTECTION

Ditch Guard[™]

Check dam system controls erosion in
channels with concentrated flow

BANK and SHORELINE STABILIZATION

Biotechnical toe protection

Enables restoration of complex habitat

Ideal for remote areas

Heavy equipment not required

Fill with in-situ materials

Lightweight, easy to transport

Adapts to any configuration

GULLY STABILIZATION

Stops down-cutting, head-cutting and slows down-gully water velocity

Ideal for remote areas

Heavy equipment not required

Fill with in-situ materials

Lightweight, easy to transport

Adapts to any configuration

SPECIES EXCLUSION

E-Fence™

Excludes threatened small
vertebrates from job sites
